TECHNICAL SKILLS

- **Programming Language**
 - C
 - JAVA
- **Web Development**
 - HTML
 - CSS
 - React
 - JavaScript
 - PHP Laravel
 - NodeJS
- **Databases**
 - MySQL
- **IDE**
 - VSCode
- **Version Controlling**
 - Git
- **Application & Tools**
 - Atmel Studio
 - Gimp
 - Figma
 - Photoshop
 - Blender

SOFT SKILLS

- Team work
- Leadership skills
- Communication skills
- problem solving
- Adaptability

INTERESTS

- Programming
- Travelling
- Teaching
- Event Organizing

LANGUAGES

- Sinhala - Native
- English - Professional proficiency

EXTRA CURRICULAR ACTIVITIES

University of Moratuwa

- Organizing Committee Member - Mora UXplore 1.0 -IEEE Club
- Member - Hiking Club
- Member - Gavel Mora Club

Poramadulla Cental College

- **Secretary** - Environment Club(2015-2017)
- Member - Hiking Club (2012-2017)
- Member - Science Committee
- Member - Sinhala Literacy Association

PROJECTS

• 2024

Todo List

Developed a Todo List application enabling intuitive task management, featuring task creation, editing, deletion, and completion functionalities. Demonstrated expertise in full-stack development by integrating user-friendly front-end design with robust back-end server capabilities.

Technologies: React , NodeJS

• 2024

Weather App

I created a mini project of Weather App , using Open Weather Map API to show current temperature, weather conditions, humidity, and wind speed for chosen cities. This project highlights my React expertise, API integration, and data visualization skills.

Technologies: React JS

• 2022-2023

Hotel Management System - Level 2

Software Project

A hotel management software designed to meet the diverse needs of the hotel industry. Hotel staff can now efficiently manage guest information, reservations, and housekeeping tasks in one centralized platform, reducing administrative burdens and improving overall efficiency.

Technologies: PHP Laravel, HTML5, CSS, Bootstrap

Databases: MySQL

• 2021-2022

Safe Zone Maker - Level 1 Hardware

Project

We created an automated machine for several tasks like using face masks, washing hands, sanitizing, and measuring temperature during the covid-19 pandemic situation. My part there was measuring customers' weight & spray sanitizer on the shoes.

Components used: Atmega32, HX711 converter, Load Cell sensor, Servo Motor

LCD Technologies: C language
